CONGRESSIONAL.

Senatorial Discussion on Party Ways.

SHARP TILT IN THE HOUSE.

Gathered Gleanings From the Committees and From the Departments.

[Associated Press Dispatches to the HERALD.]

WASHINGTON, April 18.—The Land forfeiture bill went over as unfinished business in the Senate, and at two this afternoon the Dakota bill came up, and Sherman took the floor in its support. He replied in an impassioned manner to Vest's allusions to the unfair methods in the election of President Hayes. He claimed that every suspicion ever cast upon the integrity of that proceeding had been repelled, and that it stood in history as a matter in which the Republican position could not be impeached. Sherman showed by the vote in the Senate that the electoral commission bill was not a Republican, but a Democratic measure. Twenty-six Democrats had voted for it, and only twenty-one Republicans, while the votes against it were fourteen Republicans, including himself and one Democrat, Mr. Eaton, of Connecticut. The Democrats were therefore precluded from assailing the bill as a partisan measure. He declared his full conviction that Hayes had been fairly and legally elected, and that it by some hocus pocus Tilden had been inaugurated, he would have been illegally elected. He explained the incongruity of Packard not getting the Governorship of Louisiana by showing that that was subject to local laws and decisions, and declared his conviction that Packard was illegally deprived of his office. The Democratic party had not only by

FRAUD AND BY VIOLENCE

Sought to control the Presidential election, but it had actually succeeded in depriving of their offices, the duly elected Governor and members of the Legislature. Then he proceeded to read extracts from a speech made in the late canvass by Senator Eustis, in which he declared it to be the determination of the white men of Louisiana to solve the race question without regard to Northern sentiment. If that, said Sherman, was the desire and determination of the white people of Louisiana the constitution of the United States would have to be changed. When it was said there must be a white Governor in Louisiana it meant an un-Republican government. The people of the South instead of seeking to win the colored people by kindness had maintained systems of domineering crime and violence against them. He had felt called upon to make these remarks, partly to correct the historical error into which many persons had fallen, and to show that not only did the Returning Board of Louisiana have sufficient evidence before them of fraud and violence and outrage in the election of 1876, but that the present Governor of that State and one of its Senators had confessed all, and more, that has ever been claimed by the Returning Board. If ever anybody had any doubt of the election of Hayes, that doubt has been removed by the admission of the very men who had participated in the wrong of that day in Louisiana. Sherman continued his defense of Hayes' election, and made a general arraignment of the authorities of the Southern States of intimidating negro voters. He was listened to with profound attention.

Mr. Vest said he still denied the honesty and legality of that election. The question he had asked about Packard and Hayes had not been answered satisfactorily. Vest referred to the speech made in the Senate by Blaine, in which Blaine declared that the elections of Hayes and of Packard were indissolubly connected. Vest passed on to the question of the Louisiana Returning Board, and asked why it had been that

EVERY MAN CONNECTED

With the Returning Board, from the highest to the lowest, had been rewarded with office. There was no page of the Administrative history that demanded more explanation than that which now stared him in the face. He (Vest) stood there to vouch that whatever had been done in the State of Louisiana on that occasion had been done not to bring about an unfair election, not to trample on the ballot of any human being, but to defend themselves against the outrageous and criminal conspiracy against their property at the hands of men who had gone there for the single and sole purpose of plunder. He criticized sarcastically the opposite sentiments expressed by Sherman in his two recent speeches at Nashville, Tennessee, and Springfield, Illinois, and said, in conclusion: "At the risk of the Senator's contempt, I undertake to say that the American people never will be satisfied with the explanation made to-day, but that, like James G. Blaine, they have already come to the conclusion that it is impossible ever

FOR THE INGENUITY

of the Senator from Ohio to explain why it was that the vote of Louisiana as returned by the Returning Board was good for the purpose of giving the electoral vote of Louisiana to Hayes for the Presidency, but was not good for the purpose of giving it to Packard for the Governorship of the State.

Sherman reiterated his previous statement, and said in reference to Packard, that President Hayes had no power over the returns sent to the legislature. After the Democrats had inaugurated their reign of tyranny to drive Packard out it was not in the power of the President to recognize him without usurpation.

The Senate then adjourned.

House Legislation.

In the House, Belmont introduced a bill to prohibit the coming of Chinese laborers into the United States. It was referred. Its main provisions are similar to those contained in the new treaty act of May 6, 1882.

The conference report upon the bill authorizing the President to arrange a conference between the United States and the South and Central American Republics, Hayti, San Domingo and the Empire of Brazil, (Townsend's Zollverein measure), was agreed to.

The bill to establish a department of labor was passed.

The bill to create a Board of Arbitration for the settlement of controversies and differences between inter-State common carriers and their employes, was considered in the Committee on the Whole. O'Neill briefly explained the provisions of the measure. Parker of New York and others opposed O'Neill's bill as being weak and insufficient. Buchanan (J) and others favored it. The Committee has avoided providing for enforced arbitration because it meant enforced awards, and this was going too far. The debate finally drifted into the tariff discussion which continued some little time. Finally on motion of Cannon, the sixth section which provides for the appointment by the President of the Board of Arbitration was amended by substituting the words "commissioners" for "arbitrators" and "decision" for "award." The Committee then rose and the House adjourned.

The House got much worked up this afternoon over a bill to create a Board of Arbitration to settle labor disputes.

THE TILT OCCURRED

Between Tarsney of Michigan and E. B. Taylor.

Farmer had said the way to aid the laboring men was to pass the Tariff bill.

Taylor said the Irish who were always complaining of British oppressions were too ready to fight England's battles in India and he feared there were too many Irish here in this country and in this House who were deceived by the cry of the Democracy and were ready to fight against our interests in favor of free trade in England.

Tarsney assumed that Taylor said there were too many Irish in this country and made

A VERY VIGOROUS

Reply and for time there was much discussion.

Capitol Gatherings.

The Senate Committee on Foreign Relations yesterday decided, by a party vote, to report the fisheries treaty adversely.

At the caucus to-night, after considerable debate, the motion was adopted that the Democratic members of the Ways and Means Committee be requested to confer with their associates on the committee and endeavor to reach an agreement as to the time during which the debate on the tariff shall continue.

The Sub-Committee of the House, Committee on Educational yesterday decided to report to the full Committee a substitute for the Blair educational bill as passed by the Senate. The substitute provides for the use of money realized from the sale of public lands not to exceed $8,000,000 in any one year for educational purposes. The money is to be distributed among the States in proportion to the number of persons of scholastic age.

The House Committee on Agriculture at its meeting yesterday morning received the briefs of the attorneys on the refined lard investigation and agreed to take up the bill for final action at the next meeting, one week from to-day. The committee also fixed Saturday for hearing the arguments on the Hatch and Enlo bills, prohibiting speculation in farm products on the boards of trade. The question of the constitutionality of the propositions will be argued by the attorneys representing the leading boards of trade of the country.

O. L. Pruden, assistant private secretary to the President, was before the House committee on printing yesterday, to explain the circumstances connected with the binding of President Cleveland's marriage certificate at the Government Printing Office. Pruden said the certificate, a very elaborate and handsome one, had been gotten up by himself and taken to the public printing office, where it had been bound in elegant covers. It had been delivered to the President several months after the marriage. The President knew nothing of the binding until recently, when he had been told about it by Mr. Richardson, the Chairman of the Committee on Printing. Pruden further said it had been customary to have private work for the President done at the Government Printing Office during the past Administration, but that when President Cleveland discovered the fact he had ordered the practice discontinued.

The President has vetoed the bill for the relief of Major Daniel N. Bach, Paymaster of the United States army. The object of the bill is to release Paymaster Bach from all liability to the Government for the loss, by theft, of $7,350, which was entrusted to him for the payment of United States troops at the various posts, one of which was at Fort McKinney, Wyoming Territory. In the veto message the President says: "When it is said this loss can be charged in any degree to the neglect or default of this Government it is answered that the direct and immediate cause of the loss was an omission on the part of the Paymaster of the Government, in whose custody these funds were placed, of the plainest and simplest acts of prudence and care. I am thoroughly convinced that the interests of the public would be better protected if fewer private bills were passed relieving officials upon slight and sentimental grounds from pecuniary responsibilities, and the readiness with which army officers join in the applications for condonation of negligence on the part of their army comrades does not tend, in my opinion, to maintain that regard for discipline and scrupulous observance of duty which should characterize these belonging to their honorable profession. I cannot satisfy myself that the negligence made apparent in this case should be overlooked."

The Committee on Legislation submitted the following recommendation: That the Grand President is made President of the Day at all celebrations. Two members were added to the Visiting Board. Persons not members of the order were forbidden to wear regalia at any celebration.

To-day the Grand Parlor was called at 10 o'clock. The Committee on Legislation reported that they had made a careful investigation of the status of the General Winn Monument Committee and had arrived at the conclusion that there was no legal authority for the existence of such a committee; therefore they recommended that a new committee be appointed with full power to act in the matter of erecting the monument to the founder of the order which was adopted. The premium of $500 offered for a ritual to be submitted to the subordinate parlors by September 1st was approved. If by that time no ritual was accepted the committee itself would prepare one.

At the afternoon session F. P. Tuttle reported for the General Winn Committee and recommended the appointment of a committee of five to carry out the work of erecting a suitable monument to the memory of the founder. A motion was read to hold a celebration every three years and was voted down almost unanimously.

Unearthing the "Swag."

Since the clever capture of William Elton, the alleged crook who so boldly attempted to burglarize the residence of Mrs. Baker on Hill street, a week ago, the detectives have been on the *qui vive* for goods supposed to have stolen by Elton previous to the attempt made at Mrs. Baker's. With this object in view, Detective Donahue yesterday searched the recent lodgings of the prisoner, and unearthed a number of articles supposed to have been stolen from Mr. Cuzner, of the Kerchkhoff-Cuzner Mill and Lumber Co. If Elton owned the articles found in his room and came by them honestly, he showed a decided taste for ladies' trinkets, for the property recovered consisted of four lady's gold pins, two lady's cameo pins, two gold lockets, a pair of pearl opera glasses and a silver fruit knife. The detectives are still of the opinion that Elton is an Englishman who, under a series of aliases, has won a world wide reputation for his daring daylight burglaries.

He also saw four men in the room. The peddler drew his revolver and the man was told to make a noise at the back of the house. Accounts have been received from the southwestern frontier of San Paulo of the poisoning of Indians en masse. According to statements forwarded thence to a San Paulo paper, a certain Joaquin Bueno, who has 70 armed men under his command, recently assaulted a large Indian village, and while the frightened Indians were absent, poisoned with strychnine not only all the food and drink abandoned by the fugitives, but also the wells and springs. According to Bueno's own declaration he found, when he returned a few days later, 3,000 corpses of Indians in the village. He also boasted that in another village he had poisoned 800 Indians, and that he was about to treat similarly another in which 5,000 Indians resided.

THE EMPEROR'S LIFE.

His Recovery Exceedingly Doubtful.

MANIFESTO BY BOULANGER.

Russia's Attitude to France—Roumanian Riots—Irish Matters.

[Associated Press Dispatches to the HERALD.]

BERLIN, April 13.—9 A. M.—The improvement in the condition of the Emperor continued yesterday evening, although his fever increased a little. The Emperor had a tolerably good night. His sleep was somewhat interrupted by coughing. The fever has not yet disappeared.

AN ABSCESS THE TROUBLE.

The consultation held by the physicians this morning showed the Emperor's condition less satisfactory than yesterday, but better than last evening. Feverish symptoms were indicated last evening. The Emperor's temperature rose to 39 degrees Selsius. To-day it had fallen to 38 4-5 degrees. During the night Dr. Hovells inserted a wide canula. The physicians have again sounded the Emperor's lungs and found that they were not affected. This strengthens the opinion that an abscess has formed in the trachea. There was

GREAT EXCITEMENT

On the streets to-day, owing to the circulation of the report that the Emperor intended to drive to Berlin from Charlottenberg. There was much disappointment manifested on the rumor proving groundless. The Emperor appeared at the window at Charlottenberg Castle at 12:45 P. M., and was enthusiastically greeted by the crowds that had assembled.

NO CHANGE OF CONDITION.

At 3:30 P. M.—The following official bulletin has been issued: The Emperor had a fairly quiet night. Otherwise his condition is unchanged, the fever continuing.

At 1:12 P. M. the condition of the Emperor was almost the same as it was yesterday. The physicians held a consultation this morning. Bismarck visited the Emperor at 11 o'clock.

At 1 P. M. the condition of Emperor Frederick had changed for the worse. His life is considered in danger. The tube in the Emperor's throat was skilfully changed by Dr. Hovell without assistance. The new tube gave the Emperor much relief. He bears his illness admirably, and, in spite of all, takes the greatest interest in State affairs.

FEVER GREATLY INCREASED,

The Emperor spent a few minutes at the window about 5:40 P. M., after which the fever greatly increased. Dr. MacKenzie fears blood poisoning. A general consultation of doctors and lung specialists will be held to-morrow. At 7:30 P. M. the Emperor's condition is neither better nor worse. Intense anxiety prevails.

REVIEW BY THE CROWN PRINCE.

The Crown Prince slept at Berlin last night. This morning he reviewed the troops in Templehofer fields. He was enthusiastically greeted in Unter den Linden, where the troops defiled.

AN OUTSIDE VIEW.

LONDON, April 18.—A dispatch to the Exchange Telegraph Company from Berlin, timed 4 P. M, says: The condition of the Emperor is less satisfactory. It is reported that blood poisoning has supervened, and that his temperature has increased. The hopeful feeling of the morning has been replaced by a feeling of despondency.

PARIS, April 18.—The *Gaulois* says that at the request of Empress Victoria the French doctors Jean and Fannel and the English doctor Evans will proceed to Charlottenberg to examine the Emperor.

A FRENCH SPECIALIST'S VIEWS.

PARIS, April 18.—Last week the German Embassy at Paris was asked to indicate French specialists who were thought worthy to examine the Emperor. Doctors Pean and Jauvel were selected and their names sent to Berlin, but since nothing further has been heard regarding the matter. To a reporter of the *Temps*, Dr. Jauvel expressed the opinion that the Emperor's malady was soft cancer, which spreads rapidly destroying itself and the organ it attacks. He advises that it be treated with phenic acid. He thinks it is too late to try the incision of the larynx, which is the only certain cure, but on examination he might change his opinion.

It is denied in Berlin that French specialists have been summoned to examine the Emperor's case.

Boulanger's Movements.

PARIS, April 18.—The *Figaro* says General Boulanger will shortly issue a significant political manifesto, in which he will propose a revision of the constitution. The League of Patriots have congratulated Boulanger upon his election to the Chamber of Deputies from the Department of the Nord. Another attempt was made last night to hold an Opportunist meeting at Bordeaux, but the Boulangists again interfered and forced a suspension of the gathering.

Not an Effective Excuse.

LONDON, April 18.—The case of Mr. Peters against Mr. Bradlaugh for £500 damages for libel in stating that Lord Salisbury gave him (Peters) £25 to promote a meeting of workingmen in Trafalgar square came up to-day, and Lord Salisbury testified that the money was given Peters to provide free breakfasts for the poor. A verdict was awarded the plaintiff, with £300 damages.

Rioting in Roumania.

LONDON, April 18.—The riots in Roumania are spreading. Soldiers have been sent to thirty villages to restore order. Robbery, murder and other outrages are being committed. The Government is powerless.

Russian Views on France.

ST. PETERSBURG, April 18.—The Moscow *Gazette*, in an article on the French situation, says: It is greatly to Russia's interest that France should be strong, no matter through whom.

TRACK AND TRAIN.

Two Casualties on the Southern Pacific.

ANOTHER ROAD COMING WEST.

Fruit Shippers Anxious to Have the Rates to the East Reduced.

On Alameda street near First, at an early hour yesterday morning, a switch engine moving up from the Southern Pacific yards collided with a number of freight cars that were standing on the track. Five of the cars were smashed to pieces and the engine also received considerable damage. The line was effectually blocked, so a large gang of workmen was immediately summoned and set to work. Local traffic was delayed, however, for a few hours, but the track is now in its wonted condition. None of the trainmen were hurt, as they saw the danger ahead of them in time enough to leave the engine.

ANOTHER ACCIDENT.

Later on in the morning a switch-engine in the main yards ran off the track delaying the departure of the Santa Monica, San Pedro and Santa Ana trains for about an hour. Affairs were soon righted, however, and beyond the temporary inconvenience to the traveling public no harm was done.

COMING TO CALIFORNIA.

Another Eastern Road Anxious to Get Here.

The Chicago *Times* says that it is announced, upon very good authority, that the Chicago, Milwaukee and St. Paul Company is behind the proposed Leavenworth and Denver Short Line, which is just now exciting a great deal of interest among the business men of Denver and points along the proposed line. It is known that the St. Paul has purchased 1,950 acres of water-front at Oakland, and that it has quietly secured the right of way for a distance of 850 miles from Oakland, through Stanton and Lathrop.

The direction of the route selected is eastward from the Pacific Coast to Salt Lake City, and the expressed intention of the people having in charge the Leavenworth and Denver Short Line is to construct a line from the former point to Denver, then westward through the mountains to Salt Lake City. It is very easy to believe that the St. Paul is interested in the new enterprise. It has been an open secret among railroad men for several years that the Chicago, Milwaukee and St. Paul is anxious to reach the coast, and it is only a question of time until this company will operate a line of its own from the Missouri river to San Francisco.

The company has an independent line to Kansas City and is anxious for western and southwestern branches. It would be an easy matter to extend this line to Leavenworth and thence westward to Denver. A statement is made that the Denver people propose to tunnel the mountains and push the new line on to Salt Lake.

When these disjointed facts are put together, it rounds out a colossal but entirely feasable scheme behind which comes up the Chicago, Milwaukee and St. Paul Railroad Company striking for the Pacific Coast. The Burlington, Santa Fe, Missouri Pacific and Union Pacific found it essential to build to Denver. The Rock Island is on the way, and the signs indicate that the St. Paul is making formidable preparations for the westward march, and that the proposed short line from Leavenworth to Denver is in the line of its advance.

FRUIT SHIPMENTS.

Reduced Rates Wanted From the Southern Pacific.

The San Francisco *Examiner* says that A. T. Hatch and a number of others interested in the fruit industry waited upon the Southern Pacific people yesterday in relation to procuring favorable rates on fruit shipments to Eastern points. Charles Crocker, Colonel Fred Crocker, General Manager Towne and General Traffic Manager Stubbs were with the delegation. The request of the fruit men in substance was that the company charge $300 per car for a special train of ten cars to Chicago run on fast time, and $200 per car for ten cars run on slow time to the same place; also $400 per car load for special trains to New York. The railroad officials were favorably disposed towards the delegation's request, but, as General Traffic Manager Stubbs stated, they would do nothing until they saw how far their Eastern connections were willing to go in making a low rate. The conference was then dissolved.

As the Transcontinental Association meets in San Francisco on May 1st, it is almost certain that the subject will be taken up by it, at the suggestion of Mr. Stubbs, and a definite policy outlined for the handling of California fruit shipments to the East.

TOURIST TRAVEL.

Two More Excursions Coming From the East.

Two more excursions are en route to this city. One left New York under the auspices of the Sunset Company on Monday and will proceed via New Orleans and arrive here about Monday next. It consists of six carloads of tourists. The other is a Phillip's excursion and left Boston yesterday morning. It will come over the Santa Fe's lines and is due here on Tuesday next.

Regarding the special train excursion which left this city last week via the Burlington route, Mr. J. B. Quigley, the representative of that company in this territory, yesterday received the following telegram

April, 18th.

"Excursion party left Denver last night on special; will reach Missouri river about 4 o'clock to-day."

W. D. SANBORN.

The Burlington excursion which will leave this city next week promises to be as mammoth an affair as its predecessors. Three carloads of passengers are already booked, thereby beating the previous records and indicating that when the excursion starts it will be without parallel in this city.

A Chat With Mr. Wilkins.

Mr. H. B. Wilkins, General Freight Agent at San Diego for the California Central and California Southern lines, arrived in this city yesterday on his way to San Bernardino. He said that railroad affairs are very active in the district he represents, and that the Santa Fe people down there have more work than they can handle. He says that work on the San Diego extension is approaching a rapid completion, and that the new line will give a fresh impetus to trade in the lower country.

Oranges for the East.

Two orange specials of fifteen cars each left the city yesterday for the East. Six cars were from Riverside seven from San Gabriel and the remainder from Alhambra, Santa Ana Anaheim, Orange and this city.

General Gleanings.

The overland trains were on time yesterday.

Ten car-loads of excursionists visited Cucamonga yesterday.

Mr. C. R. Huntington has returned from his tour up north and is stopping at the Palace Hotel, San Francisco.

A standard form of ticket receipts has now been adopted by 167 railroad lines of the United States and Canada. Among these are the Southern Pacific, Santa Fe, Northern Pacific, Union Pacific, Canadian Pacific, Burlington and St. Paul routes.

POLICE COMMISSIONERS.

Resolutions Adopted in Relation to Gambling.

The Board of Police Commissioners met yesterday afternoon at the Mayor's office; present, Mayor Workman, President Humphreys and Chief Cuddy. The Board was called to order by the Mayor at 2:30 P. M.

Policeman Lennox appeared before the Board and made an explanation in regard to his ejectment of Lawyer R. C. O. Benjamin from the Council Chamber last week. He made suitable apologies, and his explanation being deemed satisfactory, the case against him was dismissed.

Policeman Weatherman, who sustained a broken hip about four and a half months ago by being run over by a runaway team, reported to the Board that his physician still considered him incapacitated for work. In the matter of further continuing his name on the pay roll, it was decided to let him draw his salary to the end of this month, and after that time his pay to be discontinued until able to resume his duties as policeman, when he will be reinstated.

The following applications for saloon licenses were acted upon: G. Frederich—Continued one week to give further opportunity for remonstrance; Hiatt & Martin—Laid over for one week; Fitzpatrick & Hickey—Laid over; Richard Bros.—Change of name granted; Layton & Thornton—Reported adversely by Chief Cuddy and refused; A. Greenwald—granted; White & Hays—Granted.

The bid of J. Koster to feed the city prisoners at 12½c. per meal was accepted. The bid of Wood & Wheeler at 11c. per meal was rejected. The application of Hardin W. Hogan for a place on the force was placed on the file.

John Callahan appeared before the Board to explain his charges against Officer Arguello. He alleged that Arguello had singled him out as the object of malicious prosecution; that he placed him under arrest for various trifling causes, and that he attempted to extort a bribe of $25 from him, and it was complainant's belief that Arguello wanted to divide the steal with the Police Justice. Dennis Callahan, a brother of the complainant, was present, and swore that he believed Arguello persucuted his brother out of pure animosity. Complainant said further that he knew no reason why Arguello persecuted him, except that he some time ago thrashed Arguello's brother-in-law, and because he refused to give $25. As the defendant in this charge was not present and could not get his witnesses together, action in the matter was postponed.

Mayor Workman introduced the following resolution:

1. In order that no misapprehension may exist as to the scope and purpose of the order of this Board, made April 4, 1888, as follows: "On motion, it was ordered by the Board of Police Commissioners that the Chief of Police be authorized and instructed to detail three men from the regular force to raid and enforce the law against all kinds of gambling in this city," it is hereby ordered that the Chief of Police of the City of Los Angeles forthwith detail a sufficient number of officers from the regular police force, with special instructions to them to enforce, by arrest and all other lawful means in their power, to the fullest extent and in the strictest manner, the laws relative to the suppression of gambling in the City of Los Angeles, to the end that all gambling whatsoever may be suppressed and kept suppressed therein. And it is further ordered that the officers detailed for such purpose be required to make weekly reports in writing to this board, through the Chief of Police, of the progress made, of all proceedings taken, and also of all facts coming to their knowledge relative to the violation of the gambling laws in said city, which may tend to inform the board in the premises.

2. It is hereby ordered by the Board of Police Commissioners of the City of Los Angeles that the captains and sergeants of the regular police force of said city be required to make to the board, through the Chief of Police, regular weekly reports in writing of all cases of drunkenness or other irregularities of conduct occurring among members of the regular police force, and also to likewise report all violations, of the city or ordinances or State laws committed by other persons, coming to their information or knowledge.

There was an informal discussion on the subject of fan games and other forms of gambling now in vogue in the city, the Chief's report alleging that gambling had in great part been suppressed, and that measures were under way to close out the remaining few games still running to his knowledge. The resolutions were then adopted.

The question of paying Detective Marsh a salary and placing him on the regular force was raised, but action was deferred until the private conference to-day. The Board adjourned at 4 P. M. An executive session will be held at 11 o'clock to-day.

THE LOS ANGELES HERALD IS BY ALL ACknowledged to have been the prime factor in the discovery and making known of the resources of this section. To its sagacious outgivings more than to any other agency our marvelous development is attributed.

THE HERALD has from its inception watched with a single eye the budding industries of this portion of the State. For each good enterprise this journal has at all times had a word of cheerful encouragement. In spite of the skeptical, it has survived to see all of its earlier predictions fulfilled to the letter.

THE HERALD to-day takes the lead in all respects among the papers of Southern California. Its first care still is the material, intellectual and social interests of its section. It aims to be truthful rather than over-zealous in its publication of news; to be conservative, rather than over-sensational, in its policy; to be clean and decent, respecting the sacred precincts of the home and fireside, rather than indecently salacious in its tone.

THE HERALD gets all the news from all quarters of the globe with promptness, accuracy and dispatch. Its local staff is energetic and well-trained to miss nothing of real importance to its readers. It is always alive to all public enterprises.

THE HERALD still takes pride in aiding any legitimate material, intellectual or social movement which will benefit the people. No other journal in this section approaches it in these important respects.

THE TEACHERS.

The Third Day of the County Institute.

SUBJECTS UNDER DISCUSSION.

Primary and Grammar Sessions in the Morning—Joint Afternoon Meeting.

The annual County Teachers' Institute being held in this city is proving to be interesting beyond the ordinary, probably on account of the excellent manner in which the programme was arranged and the intelligence of the speakers and listeners which is so apparent that it has been the occasion for remark. Generally, Institutes are dreaded by the teachers but this one is so excellently managed as to cause a different opinion to prevail:

Yesterday morning's session of the Primary section was called to order in Armory Hall by Prof. Keran after which Miss Emily A. Rice of Monrovia was called on to give an address on Grammar and Composition methods, but her exercise was substituted by instructions as to the work to be done in Second Year, by Superintendent Meredith, of Ventura County.

Miss Anna C. Murphy, of Santa Ana, gave a very interesting paper on "Color, how to teach and what."

Miss Laura Duncan, of Pasadena, followed with an article on number lessons, and stated that the pupil should first be taught to count by ones, forward and backward, to 10, and then by 10's in the same manner to 100. The pupil should next count by 2's and afterward by 3's, forward and backward, to 20, 40, 50 or 100, bearing in mind to commence with 1, 2 and 3 at different times in the operation. With this he should become thoroughly familiar. Miss Duncan circulated a number of number lessons among the teachers, similar to those used in the Pasadena schools and proceeded to explain the order pursued in teaching. At the close of intermission Mrs. Averill announced that the ladies of the Flower Festival would serve lunch for all the teachers at 25 cents and invited all of the teachers to patronize them, as it would be assisting the charitable institutions.

Miss Minnie A. Perley, of this city, gave an address on Geography, and followed with work in first lessons with the moulding board. She first heaped the soil on the board in the shape of a mountain, showing the summit and base, then divided it into several sections making a chain of mountains, and then subdivided it into parallel ranges. She stated that she talked with her pupils about mountains, for instance, the snow-capped Alps and the famous St. Bernard dogs used there. She also developed the idea of a water shed, showing how streams multiply with their tributaries and form rivers. Here is a good time to develop the uses of rivers, the power derived at waterfalls, navigable rivers, etc. The next illustration would be the plains and the different kinds, and why camels are used instead of horses in crossing them. Islands and isthmuses may be taught in connection with stories of pic-nics or parties. She confined the work at first as much as possible to this country, touching upon the change of climate and the principles governing climate.

Prof. Keran occupied the balance of the time in the forenoon by an exercise on numbers, and followed the principles taught by Colonel Parker, which is to have all problems with children as formal as possible.

THE GRAMMAR DIVISION.

The Grammar Division of the Teachers' Institute met yesterday at 9 A. M. at the Normal School building, Prof. A. W. Plummer in the chair. After the Institute was called to order, Mrs. Emily A. Rice was asked to read a paper on "Reading Methods for Seventh, Eighth and Ninth Years." Mrs. Rice recommended the use of standard works of descriptive travel and fiction from which to select reading exercises By this method she had found that the ideas expressed in the compositions were more forcibly impressed on the mind and clearly applied to the understanding.

Miss Hawks called attention to a method she had pursued of conducting a rapid reading class, also a drill, by which the preception and understanding of thoughts expressed in composition were educated. The lady considered this one of the important points in reading, as a quick preception of what was read was of manifest necessity.

The subject matter of the composition to be placed in the hands of pupils was discussed. The expression, articulation, etc., of a child on the playground was almost perfect, for the simple reason that he fully comprehended the subject matter of his conversation. If pupils were assisted to fully grasp the meaning of a subject submitted to them, they could easily be taught to read well.

The subject of United States history was next taken up by Professor E. P. Rowell. Before taking up the subject assigned him, he referred to the subject under discussion on Tuesday relative to memorizing. He had found as a rule all rules for memorizing in disrepute among the teachers of the present day. With the object of gaining some information as to the asserted results of these methods Professor Rowell had interviewed the Superintendent of the Stockton Insane Asylum. He had learned from him that a great many boys and girls were there confined, among which not one case could be traced to overtaxed memories.

Miss Lillie A. Brown gave some excellent thoughts and theories on the subject under discussion.

After a brief recess, the exercises were continued by a paper on Book-keeping, by F. E. Little, of the public schools of Pomona. Mr. Little considered book-keeping one of the most important studies in the curriculum. It was of all the common school branches possibly one of the most practical. A blackboard exercise illustrating a simple system of single entry was exhibited, also a list of forms.

In the discussion which followed, various ideas were advanced as to the best methods of teaching this branch of knowledge, many advocating the study of single entry alone, and others preferred both.

This subject was followed by some impromptu remarks on music by Professor Jas. A. Foshay and a rudimentary drill.

JOINT SESSION.

During the afternoon a joint session of the Grammar and Primary Divisions of the institute was held at the Armory Hall, some three or four hundred teachers being present. The meeting was called to order by Superintendent Seaman. The programme was introduced by a vocal solo by Prof. Jas. A. Foshay, which was heartily encored. "The Teachers' Reading Circle" was responded to by Prof. F. H. Clark. He gave a brief history of the origin of the circle. The circle was based upon the demand for a more general and thorough knowledge of literature. The teachers of the State had felt this need, and already had manifested considerable interest in the organization. The objects, prospects, &c., of the circle were explained.

Mr. Clark introduced Miss M. K. Scott who read a very interesting paper on Ruskin and his "Sesame and Lilies." Her eulogy amounted to a sharp and somewhat severe criticism.

Mrs. C. B. Bradfield being introduced gave a most interesting sketch of Genl. Lew Wallace and reminiscences of his life and that of his wife, Mrs. Bradfield stated that she had the honor of being a personal acquaintance of both the General and his wife. A letter from Mrs. Wallace was read; also one written by Genl. Garfield a short time before his death, after having just completed the reading of "Ben Hur." The letters were as follows:

EXECUTIVE MANSION,
WASHINGTON, April 19, 1881.

DEAR GENERAL:—I have this morning finished reading "Ben-Hur," and I must thank you for the pleasure it has given me. The theme was difficult; but you have handled it with great delicacy and power. Several of the scenes, such as the wise men in the desert, the sea fight, the chariot race—will, I am sure, take a permanent and high place in literature.

With this beautiful and reverent book you have lighted the burden of my daily life and renewed our acquaintance, which began at Shiloh. Very truly yours, J. A. GARFIELD.
Gen. Lew Wallace.

HOME, March 27, 1888.

DEAR MRS. BRADFIELD:—I am sending you a quantity of cuttings from which you may select what you wish. They are rather confused as the busiest of woman has "no time" and never will on this planet. You will have the goodness to make your notes as soon as possible and return these with care. I have many applications similar to yours and find the easiest way of answering is to borrow the words of others. Ben Hur has been translated into seven different languages, the last Bohemian, whatever that may be, (something gay?) two hundred and fifty thousand copies sold and demand increasing. We supposed the religious world would condemn it but instead Jew and Gentile, Catholic and Protestant, have adopted the work. It is amazing. Let me beg you to excuse evident haste. Kindest salutations of me and mine wait on you and yours. Very sincerely
SUSAN E. WALLACE.

A high tribute was paid Mrs. Wallace, the success of the general in literature, being attributed largely to his devoted and noble wife. When a friend remarked that she had not known there was so much genius in the general, Mrs. Wallace replied, "I have known it for twenty years.

Mrs. Bradfield's paper and remarks were the most interesting of any of the session and were listened to with breathless attention.

Miss Packard read a long, masterly and comprehensive review of "Ben-Hur."

After a recess of twenty minutes a discussion on "What are the essentials of a common school education," was opened by C. T. Merdith, County Superintendent of Ventura county.

Miss Emily A. Rice read a paper on the subject, in which she materially disagreed with Mr. Meredith.

Mr. E. P. Rowell, of Santa Monica, followed with some thoughts on training pupils in deportment of the body.

The exercises were concluded by a lecture by Prof. Ira More, principal of the State Normal School, on the subject of, "Moral Teaching."

Reception Preparations.

The committee of arrangements for the reception of the Democratic State Convention will meet to-morrow morning at 9 o'clock at the St. Elmo hotel. Los Feliz.

Since the highly successful auction sale at Los Feliz on Wednesday, February 15th, arrangements have been made with the surveyors for another subdivision of the Los Feliz Rancho. The new subdivision will embrace acreage property on the hills proper, also on the foothills, and beautiful alfalfa lands on the river bottom. Pending the preparation of this tract for the market that portion of the Los Feliz Foothill Tract not sold at the auction, and consisting of about 150 acres subdivided into lots of 1 to 5 acres and commanding the most magnificent prospect in Los Angeles county, will be sold at private sale. Maps, prices and full particulars concerning this lovely property can be obtained at the office of the owner.

The illustrations will be more numerous than ever before, and in point of excellence the engraver's art will maintain the high reputation this publication has deservedly gained. An Ocean Outfall for our Sewage.

A writer in one of our French papers, *L'Union Nouvelle*, discusses the question of sewerage in a manner so practical and unusual that we are quite taken with his views. He says the very first thing the city ought to do would be to secure a proper outfall for the drainage of this city. That once accomplished, the local sewerage becomes a mere matter of connecting the lateral streets with the main sewer or its branches. The outfall of this city would lead naturally to the ocean. Ballona creek would serve as a natural canal, but to carry our sewage to that creek might lead to complications, as parties living along its line have a right to its waters, and could prevent us from corrupting them. Therefore we would be obliged to adopt the sea for the debouchure of any canal we might construct. The fall from this city to the ocean is three hundred feet—eighteen feet to the mile—ample to carry our drainage rapidly away, and to render flushing from our reservoirs effective. It is not necessary that this outlet-sewer should be an expensive work of masonry. A mere canal, or zanja, such as we used to have here, would subserve every purpose. At points it might be necessary to cover it, to keep the effluvia from spreading in the settled neighborhoods through which it would pass. But all this would be inexpensive. The city should at once get the right of way, either by condemnation or by consent of the owners. Then, with a large force of men, the canal could be cut from the present outfall at the edge of the city to the ocean in the vicinity of Ballona harbor. It would not be a very costly work, nor would it consume many days in order to finish it. The ocean outlet once secured, whatever we shall then do in the city in the shape of substantial sewer work will be as effective as it will be lasting. Now is not the time to talk about the value of the sewage we shall convey to the ocean. But it will not be long before cultivators along the line of this canal will be willing to pay quite a bonus to the city for the privilege of taking out the sewage so as to spread it over their lands.

THE San José *Herald*, in a recent issue, takes the railroad shipments from points in this State to the East, as given by the Southern Pacific Company, as a text on which to preach a pretty little sermon upon the prosperity of its section. San José is a charming spot, rich in many resources and with very alluring attractions to the home-seeker and settler. She is quite deserving of all the prosperity she enjoys, and will, with each revolving year, find her productions more sought for in Eastern markets, and her coffers filled to a point nearer overflowing from the large returns they will draw back. We endorse every suggestion as to our fair sister of the central plain—every one but one. Our esteemed contemporary of the Garden City wanders from a strict construction of his text to a digression as unfounded as it is unwarranted when he institutes a comparison—odious, of course—in which he seeks to show his city ships more goods to the East than Los Angeles does. The *Herald* says:

> San José begins the year auspiciously. During the first three months of the present year the quantity of overland freight shipped from this city equaled the combined shipments of Sacramento and Oakland, and was almost as much as the total shipments from both Los Angeles and Sacramento. San José, as an exporter, stands second only to San Francisco.

The comparative figures for the two points seem to be: Number of pounds shipped from Los Angeles in March 5,555,900; for three months ended March 31st, 10,858,400; from San José, March 4,096,900; three months 14,795,700. Now, in the first place our genial contemporary is pleased to ignore the fact that in the case of his city he gives all the shipments, while in our case he tells only half the tale. He has only one transcontinental road, we have two; and it is quite reasonable to suppose that the Santa Fe line carries from our gates as much merchandise as the rival road. On such a basis our total for one month would be 11,000,000 pounds, and for three months nearly 22,000,000 pounds. Then, our friend gives of the shipments for March from his city 3,715,700 pounds of barley—or more than three-fourths of the total were of that cereal. Barley "free on board" is worth somewhat less than one cent per pound. Our shipments are at this season mostly oranges, which are worth, free on board cars, on an average about $2.50 per box, or, say, three times as much. The result is that our shipments in bulk are twice as great as those from San José, and—what is of more moment—in value worth six times as much. San José is a nice place until you see Los Angeles.

THE buying of United States bonds is a subject near the heart of the average Republican, for the underlying doctrines of that party are, when carried to their logical results, nearly all subversive of our institutions in their purest and most popular forms. That a strenuous effort is to be made to enrich the National banking system is clear enough in the light of such publications as the following, issued by a leading banking house of New York and scattered broadcast over the Union.

> It is well to seriously ask, "What is the 'Trouble'?" when all securities—stocks and bonds, and even Government bonds, are steadily declining; when all products; when the great staple—iron; when wages, as well, of the hard working man, are all declining. Capital cannot keep up its wages to the working man under these conditions, and in consequence strikes occur all over the land, and worse yet to come, if the Treasury is to be allowed to keep on in the locking-up process.
>
> We say it is well to ask with all seriousness, "What is the 'Trouble'?" With our population increasing with unexampled rapidity, with peace in all our borders, why should this be?
>
> If a well, hearty and strong man should suddenly lose a quart of blood, and each month blood should dribble, dribble from his veins, would any one aware of this fact ask, "What is the 'Trouble'?" No! Why should they?
>
> The trouble is the depletion of the life blood of a Nation in the loss of its currency.
>
> If some strong combination should suddenly withdraw even ten millions of currency from active use, it would almost create a panic.
>
> What is the fact? There is now locked up in the Treasury of the United States nearly two hundred millions of currency, once in active use. Let this out, and at once the trouble will cease.
>
> The President of the United States has seen fit to raise a point about a law authorizing the use of the surplus in buying bonds, under which law already, nearly two hundred millions of bonds have been bought—much to the saving of the people. He asks Congress to re-enact the same law—while waiting for this, the country suffers. The House promptly re-enacted the law; the Senate will in time do the same.

The Republican party and the National banks work hand in hand. The banks hold the bonds, by the subserviency of the Republican party they will—if that party gets into power again—either force the bonds on the Government at an exhorbitant premium, as the above excerpt advocates, or else refund them for a long period and thus perpetuate the special legislation which allows privileged parties to use the National credit as a basis on which to do business.

THERE is, as the matter stands now, on the very threshold of the National campaign, a very pretty fight—a factional one—in the camp of our esteemed Republican contemporaries. The appearance of a new morning paper on the scene of action here a couple of years ago, was taken by certain members of that political family very much as a new addition to any family is taken by what had been the baby of the household. Someone felt his nose likely to be put out of joint. The family quarrel in the late campaigns were bitter, as such disagreements usually are. It has seemed for some time past as if the tomahawk and scalping knife had both been laid to rest; but that evidently was a mistake. Mr. Boyce still lives—yes, and has a pretty numerous following. He is a politician—spell the word as you will. His is a figure which will not down at the Republican lovefeast; and Banquo's gory locks never apalled the heart of guilt-shaken Macbeth more terribly than does the figure of the genial Colonel disturb the mind of certain of his political and journalistic brethren. The question is which will yield the field? Will this political Banquo hence and quit the sight of those whom he so much disquiets, or will he break up the meeting in most admired disorder? Sit at the same board the two factions will not.

> Michael F. Tarpey had best shake that bee from his bonnet, for it will not buzz him into the Lieutenant-Governor's seat. He is not morally fit for the place besides.—[San Bernardino Index.

THIS appeared in the columns of our esteemed contemporary some days ago. We asked for further proofs, and in a cowardly and vindictive article the *Index* replies with a choice selection of allegations and innuendoes—but with nothing relevant to the matter in hand, and with not a fact. Things are hinted at which took place when Mr. Tarpey was a mere boy, and in which he was in no way concerned. What has he to do with this? One of the proprietors of this paper is appealed to for a confession of what he knows. This witness, the only one called, says he is absolutely ignorant of any immoral act done by the gentlemen so aspersed; nor has he heretofore heard Mr. Tarpey's morals called in question by any one who knows him. Come neighbor, be a man, if there is any man in you; substantiate your mean, malignant and cowardly innuendos, or stand confessed an assassin of character, and a bearer of false witness against your neighbor—and for what? To gratify a bit of partisan spite.

A FEW years ago the San Jacinto Valley in San Diego county, was almost an unknown land. There were hardly a dozen people in this section who thought it of much value or capable of being made much of. To-day it is the center of a large population. Improvements of many kinds are being pushed along with much vigor, and there is promise that one of the most flourishing communities in Southern California will be in San Jacinto. There are 25,000 acres of grain in the ground this season. Many fine orchards have been planted which are in a most thrifty condition. The railroad from Perris is nearly finished; nine miles of tract is laid, all the grading is done, and by the first of May it is expected that the neighing of the great iron horse will ring through every nook of the valley. A big excursion to open the road is on the programme, and then we can all see for ourselves how rapid the march of improvement is in this part of the semi-tropics.

THE cry of "stop thief" always calls for the exercise of some careful discrimination. The light-fingered gentry ages ago learned that the best way to escape is often found in the midst of the pursuers and joining in the hue and cry. The attenuated and diaphanous policy of our esteemed Republican contemporary in reporting an alleged attempt to corrupt those patriotic Republican office-holders in charge of registration in this city, looks much like a case in point. That the registration of voters can be so manipulated by our friends as to redound to the greatest good of the greatest number—from a purely party standpoint—in this county, we know too well. That the best use will be made of the registration bureaus—from the same high and patriotic standpoint—we need not doubt. Is this the fire beneath so thin a smoke of alleged corruptive attempts? Watch and see!

> ELECTION returns from all parts of the West show that prohibition is losing its grip, to make way for high license.—[Times.

"Lay not that flattering unction to thy soul." The Prohibitionists never exhibited more activity than now: and the election returns from the West do not show any discouraging features to the party which is splitting the Republican organization in pieces.

> WHEN the time comes for a reduction of the revenue it will have to be done by the Republicans, and they will do it in a plain, practical manner, without any flourish of trumpets. —[Times.

Probably! Get a few Robesons, Babcocks, and Bill Chandlers to make a "combine," or surplus "trust" with a John Roach, or two, and the money in the Treasury would be "like snowflakes in the river, a moment white, then lost forever!"

> REPUBLICANS have a strong distate for wearing any man's collar but their own. Nor are they willing to be branded like a lot of Texas steers.—[Express.

That is true. That party wears no collar that is at all bucolic or plebeian. Its collars are always of the purest gold, and bear the heraldry of some millionaire house, or the arms of some monopoly.

THE BELL-WELLS LIBEL

To be Taken to a Higher Court In Appeal.

Major Horace Bell's libel suit against Col. G. Wiley Wells, again engrossed the attention of Justice Taney's court yesterday to considerable extent. At the opening of the morning session, the Court overruled the demurrer, and at the request of the counsel for the defense the case was continued till 11 o'clock in order to give time to take out a writ of habeas corpus. The matter, however, went by default as the defendant was not in the hands of the Sheriff. Major Bell then came forward and asserted that he was the plaintiff in this case and rehearsed his grievance, stating how the defendant Col. G. Wiley Wells, in company with A. M. Thornton, did on the 23rd of February last, cause the distribution of a pamphlet entitled "The Life of Horace Bell," in which plaintiff was grievously libelled. At the 2 o'clock session Attorney Stephens raised a question as to the jurisdiction of the presiding Judge, it being alleged that more than one year had elapsed since the filing of the complaint, defendant having been absent from the State at the time the papers should have been legally served, and that three months must elapse after his return before the papers can again be legally served. Pending the decision of this point by the Superior Court, the action was adjourned and reset for hearing several weeks hence.

BEAUTEOUS BOOTHS.

Scenes Inside the Flower Festival Pavilion.

SOME HANDSOME EXHIBITS.

The Building Thronged With Visitors—Satisfactory Financial Receipts.

Long before the doors of the Pavilion were thrown open to the general public yesterday morning, a host of ladies took possession of the building and started on the labor of regenerating the booths. Buggies, laden with flowers of all descriptions, were driven up to the doors and their sweet-scented loads carried into the building, where willing hands were in waiting to receive and convey them them to their destinations. The heated atmosphere of the previous night had played sad havoc with the tender flowers that had looked so charming but twelve short hours before, but which, instead of the nourishing draughts from their parent stem, had sucked into their petals the breath of death from the destroying influences around, and drooped their pretty heads and died. To replace them meant an infinite amount of labor, but those present were equal to the task. Withered leaves and faded flowers were soon plucked away, and their places filled by fragrant blossoms, bearing yet the fresh morning dew that had fallen on them as they raised their heads to greet another day. A great many of the booths had not been completed for the opening night, and on these a great deal of the labor was centered. Those interested in any of the prize competitions naturally gave all their efforts to their own designs and as the day wore on it was to be seen that the scene of the opening night would be excelled by the arrival of the time for the evening entertainment. In the meantime the hour of admission, 9 o'clock, had arrived and visitors began to arrive almost immediately afterward and increased so rapidly that by noon quite a number of people were within the building. Many entered the enticing dinning room in the basement for their midday repast and came away well satisfied with the fare that was spread before them. In the afternoon the throng became denser than ever, ladies and children being in the majority and it could also be seen that a good many "country cousins" were on hand. The evening rush commenced about 7 o'clock and was as great as that on the preceding night, the building containing 3,000 or 4,000 people by the time the Seventh Infantry band took possession of its quarters to open the ceremonies. The stage performance was under the direction of Mrs. Mamie Perry-Davis, and the performers were sixty-eight children of the Orphan's Home of this city. When the curtain went up it revealed them all seated on the stage and they sang a trio and chorus, "We Welcome You All."

The next was a tableau entitled "At Vespers," depicting an angel watching over the little ones as they murmured their evening prayers. The effect was very pretty and deserved the liberal applause it received as the curtain went down.

Then came a recitation by all of the children, followed by a tableau, "Children's Paradise." A child was revealed on the stage blowing soap bubbles, and the background scene gradually opened and showed a number of elegantly attired children.

A chorus, "God be with you," was then sung, and the performance closed with a very striking scene entitled, "The Angel Mother." The idea upon which the production is formed is very poetical, and depicts a ward in the Orphans' Home. A child is praying by his bedside, when suddenly the vision of his angel mother in a halo of glory appears before him. As he gazes wonderingly upon the scene the *Erminie* lullaby is heard softly in the distance, and the harmony produced by the voices of Mrs. Mamie Perry-Davis, Miss Davis and Messrs. James Booth and Albert Hawthorne became very impressive. The curtain hid the scene from view amid thunders of applause, and Miss Mamie Perry, Davis must have felt highly flattered at this public appreciation of her efforts.

To the sweet music of the orchestra the audience then strolled about and inspected the branches before them. A charming panel of pansies, the work of Mrs. Chaffee, placed in a conspicuous place in the center of the hall demanded a great deal of attention and received much admiration. It is a very pretty creation and must have entailed a vast amount of labor. The Alhambra booth had undergone several changes and looked more beautiful than ever. Mr. Lyon's wedding canopy had several valuable additions to it and the San Fernando and Pacoima mosque was rearranged with very pleasing results. The Long Beach lighthouse attracted about as much attention as the original would to a fleet of ships and the tinted revolving light flashed forth as if proud of the scene it embellished. Fountains were playing in the acquatic Alhambra and San Fernando booths and rippled and splashed in a manner most tempting to the heated onlooker. The demand for ice-cream, lemonade, soda-water and milk-shakes was very heavy and the ladies engaged in dispensing these refreshments were kept busy during the entire evening. Boutonniers were largely in demand and almost every individual in the building wore a floral decoration of some description. The rose booth had a great many visitors eager to examine the beauties displayed, and to do this properly meant quite a pleasant task, for over 300 varieties were on view. But where was the beautiful Jacqueminot recalling to mind Napoleon's heroic Marshal? Alas! It could not be found, and its many admirers felt sad indeed at its absence. Bessie Chandler's beautiful couplet regarding brave Jacqueminot are well worth repeating:

> Who is there now knows aught of his story?
> What is left of him but a name?—
> Of him who shared in Napoleon's glory,
> And dreamed that his sword had won him fame?
>
> Ah, the fate of a man is past discerning!
> Little did Jacqueminot suppose,
> At Austerlitz or at Moscow's burning,
> That his fame would rest in the heart of a rose!

But even his fame appears to be forgotten, for the rose emblematic of his fame was wanting.

AMONG THE BOOTHS.

Continuing the inspection of the booths from the point to which the traveller was carried in yesterday's HERALD, the bulbous booth is the next claiming attention. It has not a very large display but those on view are very fine. Some of the principal specimens noted were the white and scarlet amaryllis, the star of Bethlehem, Ranunculus, Scillas and Gladiolas. A number of hanging baskets complete the effectiveness of the display.

The old fashioned flower booth completes the row. It is decorated with wild flowers in profusion and is valuable for the remarkable beauty of its inmates.

With a wise-looking owl, grasping in his claws a golden pen, to keep guard over the establishment, the newspaper booth will readily attract the eye of the passer-by as he approaches near the stage. Huge piles of the daily papers await purchasers who wish to read accounts of the festival and send copies of such to their friends in the East. The booth is presided over by three very charming young ladies, whose winning manner does much to effect a sale of their wares. The floral decorations are not very massive, there being in point of fact not much room for any, but those that are present vie for arrangement and beauty with any within the building.

Keeping close to the stage and crossing the eastern side of the hall, a small booth parallel with the newspaper stand will cause the visitor to stop. It is the registry booth and here a huge tome is placed, in which all are expected to place their autographs as a reminiscence of their participation in the festival. The ladies in charge are very courteous and their handsome costumes add very much to the effective surroundings of their establishment.

At the top of the eastern row stands what is pre-eminently the California booth. Everything about it is yellow even to the costumes of its fair lady inhabitants and the decorations of marigolds, daisies and cassia are in perfect harmony with the surroundings. At the back the legend, "California, the Golden State," will claim attention as also the handsome decorations of sunflowers which embellish the lattice work at the top. A large eagle of marigolds, daisies and chrysanthemums with outspread wings is indicative of liberty and was a very happy idea on the part of the designers of the booth.

Next is the Inglewood booth which it is needless to say is in the front rank with any exhibition in the building. One will pause and admire the mammoth four-handled vase of Katherine Mermet roses which is a masterly creation. The other embellishments of the booth are chiefly roses of all sorts and descriptions tastefully and artistically arranged.

The traveller will probably by this time have become thirsty, and if so he will hail the next building with delight, for a sign tells him that soda-water is dispersed therein. The fair ladies that serve it hold out an additional inducement to the quality of the soda, and very few will visit the building without adding to the coffers of this establishment. It is decorated with callas in countless numbers.

"The flowers that bloom in the spring" are next on hand, and it is a source of wonder as to where they could have possibly been obtained. Fruit blossoms prevail and look very tempting with their open snowy petals, and are much admired, especially by the Eastern visitors, to whom such a sight at this season of the year is a novelty indeed. A pincushion of flowers adds to the adornments, as does also a large mirror with a framework of fragrant blossoms. Fuschias and lilacs are very numerous, and the whole is set in a framework of English ivy, making a very pretty effect.

A very large confectionery establishment must have been ransacked to provide the stock for the next booth, as candies of every description are displayed in tempting array. Very few of the sweet-toothed will be able to pass this booth by without first sampling the wares, which in every case will mean another visit, as the confections are of the purest and best make, coming, it is said, from the well-known kitchens of Mr. Demer. The structure in which they are placed is one of the largest in the building, being made with a low flat roof supported by fifteen immense pillars. Geraniums and Marguerites form the floral decorations, and, with the graces that reign within, form as pretty a picture as can be imagined. With the pop-corn booth, which is attached to the candy stand, the visitor has completed his inspection of the ground floor, and must now venture up the stairs leading to the gallery, where he will find many more marvels to interest and astonish him. Going up by the left staircase, at the head of the stairs he will encounter the gorgeous display from dear old Anaheim. The success of this exhibit will be at once conceded; it is unique, artistic and original. The design is that of a rocky grotto, showing also a peaceful lake, while floral ships add to the harmony of the scene. Hanging baskets and horseshoes deftly wrought with beauteous flowers are placed in a groundwork of roses, geraniums and lilies that must have been culled from some richly-favored spot. A miniature chair of pansies looks very pretty, as does also a floral brig with all sails set skimming o'er an ocean of purple heliotropes. The ladies in charge of this booth are both "fair to see and silver-tongued" and fifteen minutes passed here will not be easily forgotten.

Next is the geranium booth, which as its name implies consists of nothing but geraniums. A massive pyramid forms the centerpiece and the grouping and blending of colors has been done with very artistic effect.

Occupying all the rest of this side of the gallery is the Woman's Exchange, one of the most interesting places that can be imagined. Articles both useful and ornamental can be obtained here at reasonable prices, and when one considers the charitable cause for which they are offered for sale it can only be hoped that the establishment will be shorn of all its splendors ere the close of the festival. The ladies in charge are very agreeable and ever ready with explanations for inquiring visitors.

Retracing one's footsteps to the center of the gallery the inviting sign "Ice cream" meets the view. The exterior of the booth is made of bamboos, palms and canes of all descriptions, further adorned with a number of Chinese lanterns. Inside all is bustle and excitement. Every table is crowded by partakers of the delicious compound, which is served by the prettiest of waitresses in the most charming manner conceivable. Unhappy is the being who has not the wherewithal with which to enter and refresh himself here, for he will miss one of the most charming and satisfactory features of the exhibition.

Santa Monica's exhibit is the first in order on the east side of the gallery. Besides its remarkable beauty, its originality is its striking feature. The main structure is composed of oats and barley and in the interior is a representation of Old Santa Monica pier made entirely of roses while a floral ship is lying at anchor out in the roads. The effect is very fine and praise is lavishly bestowed upon it.

Next is the wild flowers booth, an atraction particularly interesting to non-residents of the State who become lost in wonder at the remarkable natural treasures that carpet the hills and vales of this favored Southern clime. The display made, has been collected with wondrous care and the specimens presented are both choice and pretty and in many instances very rare. The principal ones noticeable are the mariposa Lily, lupine, California poppy, yellow snapdragon, painted cups, cream cups, and many varieties of California ferns. The ladies in charge are as pretty as the flowers they tend, and a visit to this booth will amply reward the onlooker.

Once again refreshments are encountered, this time in the form of a milk shake booth, and the structure looks very handsome with its decoration of imitation snowballs. The liquid dispensed is a well-known favorite with Angeleños, and the fair occupants of the booth are kept busy supplying the wants of their numerous customers.

Pinks and pansies arranged in the form of a six-pointed star next meet the eye and form a very pleasing picture. This booth is very unique and conveys a vivid impression of how beautiful these little flowers are. Baskets of flowers are suspended here and there and the designers have fully succeeded in making a truly handsome display. This is the booth where the HERALD reporter was presented with a handsome bouttoniere, mention of which is made to show the generosity of the charming ladies who preside over it. English ivy hides the framework of the structure and baskets of pinks add to the rich and glowing beauty of the scene.

Last of all comes the Kindergarten Booth, a place where ten minutes will be well spent. It is arranged with great taste, and is of rustic design with a mossy bank for a centre piece. Subjects of interest to children are scattered about, and all the small fry should be certain to visit this place, as they will find much to interest and amuse them.

TO-NIGHT'S PROGRAMME.

The entertainment this evening will consist of a number of tableaux under the direction of Mrs. Henry Ludlam. Mrs. Ludlam is a recent arrival from the East and brings with her a splendid reputation for affairs of this kind and it is therefore anticipated that the posing to-night will be all that can be desired. Four tableaux will be given, the first being a representation of the "Ten Virgins," according to the Biblical parable. The idea as regards the grouping is taken from a painting by Piloty.

The second tableau will be a scene in the outskirts of Pompeii during the destruction and the scenery will be arranged according to the well-known lines of Sir Edward Bulwer Lytton.

The third tableau will consist of two parts, a "Mother's Anxiety" and a "Mother's Sorrow" respectively and represents a scene in home life.

The fifth tableau will be a "Sculptor's Studio," and all the statuary will be represented by life flowers. Among these will be seen A Roman Senator, tor, Hope, Rock of Ages, Cupid and a Butterfly Girl in Marble, Pandora, Lyda and an Angel in French Bisque and Bronze Busts of Othello and a Moorish Princess.

The following is the names of the performers: The Mesdames Parris, Correll, Hellman and Mamie Perry Davis; the Misses Richardson, Garritt, Anderson, Farnsworth, Sadie Johnson, Luitweiler, Rorick, Finney, Hills. The total receipts yesterday amounted to $1,550, $970 of which was entrance money, $153 taken for ice-cream and the balance taken at the other booths.

The wheelmen will give an exhibition on Monday night.

The dining-room will be open to-day from 11 A. M. to 9 P. M.

MISS PIXLEY.

The Charming Artiste still Scores a Hit.

A full and delighted house graced ths Grand last night to witness Miss Pixley and her fine company in the third presentation of that interesting and amusing bit of comedy, *The Deacon's Daughter*.

To-night there will be a change of bill to the *Charity Girl*. This little piece is full of a very rich vein of genuine comedy, yet with not a little element of melodramatic construction which gives it a higher interest. The "Charity Girl," who is the heroine of the play, goes through a series of really striking situations, and the role in the hands of Miss Pixley is artistically treated at every point. That an overflowing house will greet this popular lady cannot be doubted.

Roused from Inaction,

The precursor of their disease and destruction, the kidneys and bladder healthfully stimulated and toned with Hostetter's Stomach Bitters, actively resume their functions. Thus Bright's disease, diabetes, catarrh of the bladder and eneuresis are prevented. For irritating diuretics, and those unmedicated and fiery stimulants which, used even in moderation, excite both the renal and vesical organs, this is the best possible substitute. It is of botanic composition, and so congenial to the stomach, the digestive processes of which it helps in no ordinary degree, that it is promptly assimilated by the system, and its tonic effects are speedily felt. Not only does it remedy inactivity of the kidneys, but renews a regular habit of body, promotes a due secretion and healthy flow of bile into the proper channels, and expels from the circulation acrid principles productive of rheumatism and gout. It is also the leading specific for malarial complaints.

Dealers and Consumers of Beer Will find it to their advantage to call on Philadelphia Brewery, Aliso street, for the best lager or steam-beer, good on draught for weeks at lowest prices. Bottled lager $1.20 per doz., if bottles returned. Delivered to any part of the city. Telephone 91.

STOCK EXCHANGE REVIEW.

NEW YORK, April 18.—The stock market to-day was somewhat unsettled for the general list throughout most of the day, and while the fluctuations were unimportant, a few stocks displayed a marked weakness. The offer of the Treasury Department to buy bonds caused a rush to cover early in the morning and the market was for a short time strong, but a selling by foreigners soon neutralized this influence and trade started in to sell the list, finally wiping out most of the improvement.

Government bonds were active and steady to firm.

Petroleum opened firm at 88c., but sold down to 87½c. on realizing by Western operators. Supporting orders then caused an advance to 89½c., when selling was resumed and a reaction occurred, on which the market closed weak at 87½c. OZŒNA.

Ozœna is the professional or technical name given to an advanced form of catarrh in which ulceration has eaten through the membrane lining of the nose to the cartilage of the bone. Any case of catarrh may end in ozœna, but it most frequently occurs in those who are naturally scrofulous. The discharge taks place through the nostrils or through the throat, and is generally of a yellowish or greenish-yellow color, frequently tinged with blood, and almost always attended by an offensive smell. In the language of Dr. Wood, of Philadelphia, "The disease is one of the most obdurate and disagreeable which the physician has to encounter. In bad cases the breath of the patient becomes so revolting as to isolate him from society, and render him an object of distrust even to himself."

In some instances pieces of bone become separated and slough off, leaving deep, unhealthy ulcers, which secrete a bloody matter, and are extremely difficult to heal.

After ozœna has continued some time the sense of smell becomes impaired and often lost.

Deafness is one of the most common consequences and results from its extension through the eustachian tube to the internal ear.

Pains in the head and over the frontal sinuses, impairing memory, and even insanity frequently springs from its extension to the brain.

The great danger, however, because the most common, is that it will extend downward and affect the lungs. In most cases of pulmonary disease catarrh is present to some degree, and in many instances it causes a large share of the patient's discomfort.

Besides these grave consequences, all of which are liable to spring from scrofulous catarrh of ozœna, there are others which, if less dangerous, are sufficiently unpleasant. It occasions great unhappiness to thousands of both sexes by isolating them and preventing their settlement in life. An offensive running from the nose, with foul breath, is about as great a calamity as can befall young people. Every disease of this kind can be cured by our new system of practice.

I have seen so many of these cases cured that I do not consider any case hopeless, unless both lungs are seriously involved. Even then the inhalations aid us in dissolving the mucus and in contracting and healing the cavities, which nothing can do with the same success.

The very best reference from those already cured.

It fronts on two of the great coming thoroughfares of the city, viz: SEVENTH ST., the greatest cross-artery of the town, and CENTRAL AVE., destined soon to be our most accessible and grandest drive, leading south through Vernondale and the richest horticultural portion of Los Angeles county.

In this section the greatest margins of the advance are yet to be and surely will come. More general improvements inaugurated and on foot in this direction than any other portion of the city. This ground, for healthfulness and comfort, is excelled by none.
